Kowie LOMBARD	

The diagram shows three signals: G1, G2, and G3. Each signal is represented by a horizontal bar with a 'BYE' label above it. G1 and G2 are active-low signals, meaning they go low (indicated by a horizontal line) for a duration. G3 is also an active-low signal, but it goes low for a shorter duration. The signals are connected to a 3-bit bus, which is represented by a horizontal line on the right.
